

Broadcast Solutions is one of Europe's biggest system integrators and consists of a group of companies acting worldwide. Started in Germany more than 15 years ago, Broadcast Solutions stands for innovation and engineering „Made in Germany“. With subsidiaries in Europe, Asia and the Middle East the group plans, implements and realises projects and offers its services in all broadcast and content related areas – globally.

With more than 150 employees worldwide and working as a hardware independent system integrator Broadcast Solutions offers its customers tailor-made solutions – from idea to implementation and beyond.

For our headquarters in Bingen we are looking for an

Electronics Technician – Energy and Building Services Engineering (m/f/o) or related profession

Your tasks

- » Planning and assembly of electro-technical equipment in TV outside broadcast vans, satellite vehicles and TV studios
- » Construction of plants for electrical energy supply
- » Commissioning of electrical systems
- » Maintenance work on electrical systems during service orders

Your convincing profile

- » You have completed education as an electronics technician, specialising in energy and building services engineering, electrician or comparable and at best first work experience
- » You feel comfortable in a medium-sized and solid environment and see yourself participating actively in the operative daily business
- » Customer orientation, ability to work in a team, ability to work under pressure and work independently are part of your characteristics

Our offer

- » Performance-related payment
- » Additional employee benefits such as company pension plans and supplementary health insurance financed by the company
- » A dynamic and committed team
- » The chance to work in an international team and with national and international customers
- » The opportunity to grow within the company
- » At Broadcast Solutions you develop the OB vans and television studios of the future
