

Broadcast Solutions is one of Europe's largest system integrators for broadcast and media infrastructures. Founded more than 18 years ago in Germany, Broadcast Solutions stands for innovation and engineering services "Made in Germany." With subsidiaries in Europe, Asia, and the Middle East, we offer our services in all areas of broadcast, content creation, and distribution worldwide.

Broadcast Solutions offers its customers tailor-made solutions with more than 200 employees and as a manufacturer-independent system integrator. We implement complex systems in the media sector, characterized by innovation and technical leadership. Leveraging our products and systems, our customers create, produce and distribute content that is consumed worldwide. This includes the world's largest sporting events and media infrastructures in sports, broadcast, industry or medicine, which set standards on a national and Europe-wide scale.

For our headquarters in Bingen am Rhein (Germany), we are looking for a

Constructor (m/f/d)

Your tasks:

- ▶ Active role in the development of overall concepts for OB vans, TV/radio studios as well as special vehicles for public authorities
- ▶ Designing parts and components for the fitting out of vehicles or premises, considering the technical requirements of the overall system
- ▶ Preparation of documents for internal production and external suppliers using 3D and 2D CAD applications (Inventor, AutoCAD)
- ▶ Cooperation and coordination with project management, customers, further departments and suppliers
- ▶ Checking customer-specific requirements for feasibility, taking into account the cost framework, quality requirements and schedule
- ▶ Material and design selection depending on the area of application
- ▶ Preparation of technical documents and documentation

Your convincing profile

- ▶ You have completed a mechanical engineering degree or technician training or have a comparable qualification
- ▶ Ideally, you already have professional experience in the field of mechanical engineering or plant manufacturing
- ▶ You enjoy working independently
- ▶ You have good CAD and Office skills
- ▶ Communication and teamwork skills, responsible work and motivation to find technical solutions are among your positive characteristics

Our offer

- ▶ Work in an interdisciplinary team
- ▶ Worldwide projects with plenty of variety and challenges
- ▶ Flexible working hours within the framework of a flexitime model
- ▶ Helpful colleagues who offer advice and support during the induction phase and who also help you find solutions after the successful induction phase
- ▶ Inter-company benefits such as company pension scheme, supplementary health insurance, job bike
