

For our headquarters in Bingen we are looking for an

## **Quotation / Project Manager**

**Engineer / Technician fulltime (m/f/d)**

### **Your tasks**

- Commercial preparation of quotations for media technology and tenders in the fields of broadcasting and telecommunications, such as studios, production systems, playout centres, systems for remote production or outside broadcast vans
- Obtaining and negotiating supplier offers
- Supporting the conceptual development and preparation of technical descriptions
- Presenting offers to customers
- Handing over the solutions offered to the planning, design and production departments for further processing
- Overall project management of turnkey system projects
- Representation of the company at trade fairs and events

### **Your profile**

- You are a technician and/or have an engineering degree in media technology or a related profession and many years of practical experience
- Professional experience in sales and bid management is an advantage
- You take up customer requests and drive forward the implementation of appropriate solutions
- Customer orientation, the ability to work in a team, assertiveness, resilience and the ability to work independently are among your positive characteristics
- You have excellent social skills and organisational talent
- Occasional business trips at home and abroad are acceptable for you
- You have an excellent command of MS Office and MS-Vision

### **What we offer**

- A secure job with challenging, varied tasks in a unique working environment
- Long-term employment with the opportunity to develop professionally and personally within our company
- A challenging work environment with the opportunity to work with the latest technology
- The chance to work on international projects with our branches and subsidiaries
- Company benefits include occupational pension schemes, additional health insurance, and bike leasing

### **What we do**

Broadcast Solutions is one of Europe's largest system integrators for broadcast and media infrastructures. Founded in Germany in 2003, Broadcast Solutions stands for innovation and engineering services "Made in Germany". With subsidiaries in Europe and the Middle East, we realize projects worldwide and offer our services in all areas of broadcasting as well as content creation and distribution.

With more than 250 employees and as a manufacturer-independent system integrator, Broadcast Solutions offers its customers tailor-made solutions. We implement highly complex systems in the media sector that are characterized by innovation and technical leadership. With our products and systems, our customers create, produce and distribute content that is consumed worldwide. This includes the world's largest sporting events as well as media infrastructures in sport, broadcasting, industry and medicine that set national and European standards.
