

For our Bingen location, we are looking to strengthen the Quotation/Project Management team at the earliest possible date with a

## **Solution Engineer Construction / Aircon / Acoustics full-time (m/f/d)**

### **Your mission**

You will work with us to develop and realise innovative system solutions in the broadcast sector for customers worldwide. As a specialist in air conditioning technology, acoustics and weight balancing, you will accompany system projects - from the preparation of quotations through to implementation.

### **Your tasks**

- You advise our customers, develop customised system solutions and create technical sub-offers.
- You specify requirements and conduct negotiations with suppliers.
- You present your concepts to the customer and oversee their implementation.
- You plan air conditioning systems and acoustic measures in detail and carry out measurements throughout various project phases.
- You monitor production costs and coordinate changes with the project manager if necessary.
- You order materials and, if necessary, external services.
- You represent our company at trade fairs and events.

### **Your profile**

- You have a degree or training in mechanical engineering or a comparable qualification.
- You have experience in the technical planning and realisation of air conditioning systems, ideally also in vehicle construction.
- Ideally, you already have experience in the planning and realisation of acoustic measures in the environment of radio productions.
- Customer orientation, the ability to work in a team, assertiveness, resilience and independent work are among your positive qualities.
- Occasional business trips at home and abroad are a welcome change for you.
- You have an excellent knowledge of MS-Office, MS-Visio and English.

### **What we offer**

- A future-proof job with challenging, varied tasks in a unique working environment.
- Long-term employment with the opportunity to develop professionally and personally in our company.
- A challenging work environment with the opportunity to work with the latest technology.
- The opportunity to work with our branches and subsidiaries on international projects.
- Further training opportunities, such as language courses and software training.
- Exclusive benefits for employees (discounts and corporate benefits).
- Inter-company benefits such as company pension scheme, supplementary health insurance, and a job bike.

### **What we do**

Broadcast Solutions is one of Europe's largest system integrators for broadcast and media infrastructures. Founded in Germany in 2003, Broadcast Solutions stands for innovation and engineering services "Made in Germany". With subsidiaries in Europe and the Middle East, we realize projects worldwide and offer our services in all areas of broadcasting as well as content creation and distribution.

With more than 250 employees and as a manufacturer-independent system integrator, Broadcast Solutions offers its customers tailor-made solutions. We implement highly complex systems in the media sector that are characterized by innovation and technical leadership. With our products and systems, our customers create, produce and distribute content that is consumed worldwide. This includes the world's largest sporting events as well as media infrastructures in sport, broadcasting, industry and medicine that set national and European standards.

### **Are you interested?**

If you recognise yourself in this profile and would like to become part of our team, we look forward to receiving your application. Please send your complete application documents, stating your desired salary and earliest starting date, by email to:
